GIRLS OF FRANCE  
AFTER AMERICANS

More Than 40 Per Cent Want  
U. S. Husbands, Paris  
Paper Finds.

PARIS, Feb. 10. (Correspondence of the Associated Press).—To get an American husband seems to be the ideal of more than 40 per cent of the Parisian young women. At all events, that is the result of an inquiry conducted by L'Œuvre, a Paris daily newspaper, which publishes a series of letters setting forth the reasons that have guided the writers to give preference to Americans over their compatriots.

Those who would rather marry Frenchmen have their predilection largely on patriotic grounds, but a large percentage of young French women confess to a whole-hearted admiration of the average American's breezy good humor and courtesy of manner toward the other sex.

Several French girls who have had an opportunity to observe American home life appreciate the easy camaraderie between the sexes, and they come to the conclusion that a good comrade must make a good husband.

Some fair writers say French lovers are given to talking over much and are too fussy about their personal appearance. The question whether a man ought to shave or not seems to agitate the French feminine mind considerably, and the young is about equal here.

The smooth-shaven American and his French brother with a mustache. One girl raises the curious objection that "Americans eat too much while another disapproves of the heavily framed American spectacles with the huge round lenses which so many Americans affect."

ARMY VESSEL ARRIVES.  
NEW YORK, Feb. 10.—The Army freight transport Arakan arrived here today from Bordeaux with 13 casual officers, six enlisted men of detachment company No. 17, of New York, and two civilians.

## Are you sensitive about your face?

It is impossible to hide your face every time people look at you. That disfiguring eruption robs you of your rightful beauty. It lowers your chance of success in life—it brings sidelong glances where there should be smiles. Have you tried Resinol? If you have not, there is still an excellent chance

of regaining that school-girl complexion you once were proud of. Rough, red, pimply skins, skins that itch and burn, break out in pimples that are painful and embarrassing, as a rule quickly yield to the soothing medication of this ointment.

## PEACE DELEGATES NOT SCRUBBING

Stirring Scenes Are Expected  
If Credentials Committee  
Gets to Work.

PARIS, Feb. 10. (By the Associated Press).—If the peace conference commission on credentials ever begins to function, some startling developments are expected to follow.

The commission has not met thus far, even to organize. But once having gotten along entirely without the right of any of the delegates to their seats being challenged, which probably is without precedent in the history of such international gatherings, it being recalled that the famous Westphalian congress of 1648 spent the better portion of a year in verifying the credentials of its members.

The usual course of these assemblies is for the delegates to exchange their credentials as soon as they gather, any one of them being privileged to make objection to the credentials of another if he finds ground to do so. It was stated, however, that the committee on credentials of the present conference would conduct an investigation found necessary of the sufficiency of the papers brought by each delegate, and that it would await the arrival of all the delegates before undertaking the work.

The delegates have been coming along in single file ever since the opening of the conference, and it has not been thought proper to begin the examination of the documents. Rumors, however, have been current recently that there was another reason for the delay—the apprehension on the part of the directing forces of the conference that objections would be immediately lodged against the presence of some persons who have already secured seats in the conference and who, it is declared, are not proper representatives of their governments, or accredited by governments that have no existence as governments.

## PRESIDENT LOWREY WILL REMAIN IN MISSISSIPPI

BLUE MOUNTAIN, Miss., Feb. 10. (Sp.)—One of the leading colleges in one of the largest and most progressive cities of another state, through its board of trustees, has notified Dr. W. T. Lowrey, president of Blue Mountain college, of his election to its presidency at a salary exactly twice the salary he receives as president of Blue Mountain college.

At the expense of the college seeking the services of Dr. Lowrey has made a personal inspection of the school, finding it a field of almost unlimited development. Dr. Lowrey at first considered seriously accepting the call, but after taking a month to consider the question and consulting with prominent supporters of Blue Mountain college, Dr. Lowrey, Saturday, notified the board of trustees that he could not serve as executive head of the college, but that he would accept the position of trustee, and that of his family, the purchase of Blue Mountain college was made possible, particularly through the efforts of Dr. Lowrey, who is now in Mississippi, and his own ultimate decision would meet with his cordial approval.
